

## Mini-Libraries for Church Leaders *in China*

### ABOUT OUR PARTNER

#### Christian Communications Ltd.

The Outreach Foundation works with a Hong Kong-based ministry, Christian Communications Ltd., to ensure that graduates of each of the seminaries in China, along with leaders studying in several lay training centers, receive discipleship training materials, concordances, and other written resources as part of a “mini-library.” With the impact of the pandemic and shutdowns, technology allowed Christian Communications Ltd. to continue to serve churches and individual Chinese-speaking Christians by conducting training and providing literature through online platforms. The Church in China is also developing Chinese-language resources for training new believers.

### THE IMPACT

Gifts to this project supply discipleship training materials and other publications for lay leaders and recent seminary graduates. The backbone of the Church in China is its lay leaders who want continual training in how to bring the millions of new believers into mature Christian faith.

### THE OPPORTUNITY

The Outreach Foundation is seeking gifts to support Mini-Libraries for Church Leaders. All gifts of any size are welcomed to provide start-up libraries for lay leaders and recent seminary graduates. One “mini-library” costs \$70, and a Study Bible is \$18.
